## Summary

---

Full-stack JavaScript developer with professional experience in Front-End development and a passion for creating optimized, user-friendly applications. Seeking a challenging position in a dynamic company to further develop my skills and contribute to exciting projects.

## Experience

---

### Front-End Team Lead - Devdatep Consulting E.I.R.L

March 2022 - Present

- Led the Front-End area team, responsible for design and layout of components in React, optimizing the compilation with Vite, for the internal control system of users and company personnel, creating tables with their CRUD, connecting them with the backend through various APIs, using Axios.
- Created graphs, system login.
- Restructured components in folders for optimization and code cleanup.
- Developed layout with Mobile and Desktop design, using TailwindCss, according to Figma requirements.
- Managed version control using Git and GitLab.

### Admin E-Commerce

February – 2022

- Developed a Single Page Application (SPA) for a simple dashboard, with CRUD functionality for products, whose data was extracted from an external API.
- Built the entire application by integrating knowledge of CSS, JavaScript, React.js, Next.js, Tailwind UI, Post Css, ESLint, and Git.
- Consumed an external API, using Axios, to get the token and save it in a cookie.

### Yard Sales SPA

January - 2022

- Developed a shopping cart SPA, implementing knowledge of HTML, SASS, JavaScript, React.js, and Next.js, also using Webpack, Eslint, Git.
- Utilized React Router DOM, React Context, and custom Hooks, transforming HTML and CSS into React components, using useEffects and useState.

## Education

---

### Platzi Professional Web School.

2021

- Full Stack Developer in JavaScript.

## Skills

---

- Proficient in: HTML5, CSS3, SASS, TailwindCss, JavaScript(ES6), React.js, Next.js, Git, GitHub, GitLab, WebPack, Eslint, Vite, Prettier.
- Knowledgeable in: Node.js, MySQL, PostgreSQL, Express.js, Firebase (Google), Netlify, Vercel.
- Familiar with: Word, Excel, PowerPoint, Canva.com, WordPress, Figma.
- Languages: Spanish (Native). English (C1 level, <https://www.efset.org/cert/VKB9h9>).

## Leadership/Other Experience

---

### Leader – “Unidos para Cristo” Church

2009 – 2017 | Venezuela

- Led the youth team in recreational activities and participated in evangelism in the streets, schools, universities, and communities.
- Was part of the praise team and helped form new musicians and leaders.
- Collaborated with main leaders and pastors to create strategies in different areas.
- Directed and maintained audiovisual equipment.

### Freelance Work

2010 – Present | Venezuela and Perú

- Provided repair, maintenance, and assembly services for computer equipment, including printers, routers/modems, network connections, and installation of security cameras and electrical systems in homes.
- Conducted repair and preventive maintenance of electronic devices, including sound equipment, musical instruments, and microphones.
- Managed social media accounts on Facebook, Instagram, WhatsApp, and Telegram.
